IMPLEMENTATION

PLANNING/DESIGN

As part of the School Choice Enhancement Program, schools are allocated \$100,000 to spend on custom improvements to their campuses and curriculums.

SCHOOL SPOTLIGHT NORTHEAST HIGH SCHOOL

Northeast High School's weight room, completed in April 2020, has been upgraded to include new flooring, ceiling fixtures, and exercise equipment. The school's athletic programs and weight training classes can now make use of the brand-new state-of-the-art facility. With the weight room complete, contractors are now focused on renovating the Science, Fabrication, and Culinary labs, making improvements to HVAC systems across campus, and designing a new classroom addition.

In the midst of Covid-19, we would like to thank our SMART Team and our contractors who have remained hard at work on our school campuses. Though we remain committed to providing BCPS students and staff with enhanced learning environments, the health and safety of our team is essential. All guidelines provided by the CDC and other health professionals are currently in place to ensure that we can continue to strive for a SMART Future under the safest possible conditions. We appreciate the support of the community as we aim to follow through with our commitments during this uncertain time.
