## **DISTRICT 6 REPORT**

For The Quarter Ending June 30, 2020 | FY20-Q4

### **PREFACE**

We are pleased to present the Broward County Public Schools (BCPS) **School Spotlights** specifically designed for our School Board Members serving in county-wide school districts.

**SMART** (Safety, Music & Art, Athletics, Renovation and Technology) is the \$800 million capital improvement program to upgrade existing school facilities and to purchase new computer technology, athletic equipment and musical instruments to enhance the learning experience of Broward County students.

The **School Spotlight** is a quarterly report that details the progress of facilities projects at each of the 232 schools participating in the *SMART Bond Program*. This District Board Member edition provides a school-district breakdown of all approved renovation projects, projected costs, School Choice Enhancement Program initiatives and other ongoing or scheduled SMART Program projects.

These easy-to-read School Spotlights allow board members to better follow the progress of the facilities improvements within their specific school districts. The Spotlights will be updated every quarter to help board members share timely information with parents, students, school staff, volunteers, business groups, community organizations and other stakeholders as the projects progress.

Original contractual date of substantial completion is 6/20/2021. Project is currently on pace. Reason: Minor delays have occurred during the design phase and bid and award phase. The design firm took an above average amount of submissions in order to receive a Letter of Recommendation to Permit. The project also required a roofing reality check which caused a delay. Remedy: Construction has begun and is forecasted to result in a five month delay of the entire project schedule.

Original contractual date of substantial completion is 4/14/2020. Delay Reason: Delays occurred during construction related to the roofing sub-permit process. The roofing sub-permit required multiple submissions for the sub-contractor to receive approval. The subpermit was received in February 2020. #### FLAG: S - Project Delayed

#### **COMMENTS:**

Q4 2017

Q2 2019

9/20/2019

Reason: Delay in Design has occurred due to duration of time for resubmission of the Construction Documents to the Building Department. The Designer took 8 months to provide the first submittal for permitting. Remedy: The owner will be enforcing terms of the contractor for delays and multiple resubmissions. Project phase percent complete has returned to 5% due to the change in procurement method of the contractor.
