

# **MUNICIPAL REPORT**

For The Quarter Ending September 30, 2020 | FY21-Q1

# PREFACE

We are pleased to present the updated Broward County Public Schools (BCPS) School Spotlight editions specifically designed for city administrators, city commissioners, council-representatives and Broward County School Board Members.

The School Spotlight is a quarterly report that details the progress of facilities projects at each of the 232 schools participating in the SMART Bond Program. This "City Edition" of The School Spotlight provides a municipal breakdown of all approved renovation projects, projected costs, School Choice Enhancement Program initiatives and other ongoing or scheduled SMART Program projects.

These easy-to-read School Spotlights allow board members and city officials to better follow the progress of the facilities improvements within specific municipalities. The Spotlights will be updated every quarter to help city officials and school board members share timely information with business groups, community organizations, homeowners' associations and other key constituents as ongoing SMART Program projects continue to progress.

**SMART** (Safety, Music & Art, Athletics, Renovation and Technology) is the \$800 million capital improvement program to upgrade existing school facilities and to purchase new computer technology, athletic equipment and musical instruments to enhance the learning experience of Broward County students.

#### **COMMENTS:**

Original contractual date of substantial completion is 7/10/2019. Reason: Previously delays have occurred in the design and bid and award phases. These delays were not recovered. Additional minor delays have occurred during construction. Delays started with replacement of the roofing sub-contractor. Original sub-contractor was not able to obtain a roofing sub-permit. Additional minor delays due to Summer rain that affected the roof work and unforeseen asbestos abatement that was needed in the large mechanical room. Remedy: Roofing sub-permits have been received and the roofing work is progressing. Update: additional delays are being experienced due to the current health crisis. Substantial completion is now scheduled for Q4 2020.
