FEATURED FINISH

SUNSET LAKES ELEMENTARY SCHOOL

Sunset Lakes Elementary School is closing out its SMART Program renovations, with all construction on campus having reached the finish line. Among the various improvements to its facilities is a brand new roof, with the old roofing system having been demolished and replaced. To enhance air quality at the school, two chilled water pumps were replaced for the administrative offices, Media Center, cafeteria, and classrooms in Building 1, and a new chiller was installed to serve classrooms in Building 4.

The School District thanks the SMART Team and our contractors who have remained hard at work on our school campuses during COVID-19. As we remain committed to providing students and staff with enhanced learning environments, health and safety remain essential. Guidelines provided by the Centers for Disease Control and Prevention and other health professionals are in place as we work towards a SMART Future under the safest possible conditions. We appreciate the continued support of the community during this challenging time.
