FEATURED FINISH

WESTWOOD HEIGHTS ELEMENTARY SCHOOL

Construction at Westwood Heights Elementary School has wrapped up, resulting in an upgraded Media Center, renovated roofs and gutters, and new HVAC and air quality components. Enhancements to the Media Center, which were completed in 2019, can be seen in its new shelving, furniture, and flooring. Along with other building envelope improvements, the roofs of several campus buildings have been repaired and furnished with new coverings and gutters. Air handling and condensing units were installed as part of the HVAC upgrades at the school.

The School District thanks the SMART Team and our contractors who have remained hard at work on our school campuses during COVID-19. As we remain committed to providing students and staff with enhanced learning environments, health and safety remain essential. Guidelines provided by the Centers for Disease Control and Prevention and other health professionals are in place as we work towards a SMART Future under the safest possible conditions. We appreciate the continued support of the community during this challenging time.
