

#### District Board Member: Dr. Rosalind Osgood

# **DISTRICT 5 REPORT**

For The Quarter Ending December 31, 2021 | FY22 Q2

# PREFACE

We are pleased to present the Broward County Public Schools (BCPS) **School Spotlights** specifically designed for our School Board Members serving in countywide school districts.

SMART (Safety, Music & Art, Athletics, Renovation and Technology) is the \$800 million capital improvement program to upgrade existing school facilities and to purchase new computer technology, athletic equipment and musical instruments to enhance the learning experience of Broward County students.

The **School Spotlight** is a quarterly report that details the progress of facilities projects at each of the 232 schools participating in the *SMART Bond Program*. This District Board Member edition provides a school-district breakdown of all approved renovation projects, projected costs, School Choice Enhancement Program initiatives and other ongoing or scheduled SMART Program projects.

These easy-to-read School Spotlights allow board members to better follow the progress of the facilities improvements within their specific school districts. The Spotlights will be updated every quarter to help board members share timely information with parents, students, school staff, volunteers, business groups, community organizations and other stakeholders as the projects progress.

#### **PROJECT UPDATE**

The roofing change order has been re-evaluated and has received entitlement from the roofing committee. In addition, the change order was reviewed by Cost Control and comments were provided to the Contractor. The GC is responding to pricing comments. This project had a delay for months pending direction of how to proceed with work after the CO submitted by the GC was rejected. Direction has been given to the GC to proceed with resubmitting the roofing binder based on previous comments in the review. The Change Order is in process based on comments received by Cost Estimators with GC making adjustments. Roof Binders were submitted by the GC but as of 1/7/22, the ISS roofing comments were not answered. December updated schedule hasn't vet been submitted by the Contractor. The roof binder was originally submitted for permitting on June 18, 2019. It has been in the permitting process for 911 days and counting. The November updated schedule is now included. Roofing binders are the critical path and we are following up on the re-submission of the roofing binders for the changes made during the review process.

### **CURRENT PHASE**

#### ACTIVE CONSTRUCTION **PROJECT UPDATE**

Re-roof is 100% complete. Bldg 3 failed roofing inspection because of an existing damaged soffit. The change order is in the review process. The Media Center is completed. Chiller 1 is installed pending electrical connection and energizing inspection. During power shut down, we discovered the existing Federal Pacific main panel would not shut off. The EOR recommends replacing the damaged panel. The EOR submitted 2 proposals to design the main panel replacement and to add a new panel for the chillers. Both proposals have been approved. ATP to the Designer is in process. Phase 1 Design was submitted and returned to the Designer with comments. December updated schedule hasn't yet been submitted by the Contractor.

#### PROJECT SCOPE

HVAC Improvements: Building 1 Media Center Renovations: Building 1 Re-roofing: Buildings 2, 3, 5 & 85 The existing electrical Main Disconnect Panel(MDP) failed, so a new electrical feed is being designed for the chillers and then under a separate contract replacing the existing MDP. BUDGET

#### **PROJECT UPDATE**

The roof is complete 100%. The contractor is in the process of getting inspections. Lightning Protection shop Drawings Resubmittal was approved, so the final inspection will be approved. Correction to punch list was completed. Only the building final Inspection remains. This project will move to the final stage next month as we have now resolved an issue with the 'plumbing final' showing up on the card but there being no plumbing work on this project to close out so we need a plumbing final but the inspector won't come out, it's a clerical issue that has been worked out with Deputy Building Official to handle.

#### **PROJECT SCOPE**

HVAC Replacements: Buildings 1 & 3 Re-roofing: Buildings 1 & 3

#### **PROJECT UPDATE**

SMART Program Renovation at Westpine is 5% complete. Test and Balance are complete. Fire Suppression Shop Drawings are revised and resubmitted on 9/8/21. The Roof Binder is approved. The contractor walked the roof and confirmed no drainage issues. PO for roofing material submitted and work to be scheduled tentatively for mid-November. This project has had numerous delays, now that a roof sub-permit has been provided a recovery schedule is required and has been requested from the GC. The material shortages are impacting the submission of the recovery schedule. Roofing work started on 11/27/21. Already experience issues with parapet cap. Meeting onsite with John Nocella, the direction on how to proceed was given to the Contractor. Revised coping detail was provided and submitted to Building Department for review. We are awaiting a change order from the contractor since the site meeting on 12/6/21. December updated schedule hasn't yet been submitted by the Contractor.
